

Organisations suspended from MCERTS for manual stack emissions monitoring

Name	Date of suspension	Date of re-instatement
Resource & Environmental Consultants Laboratory Number 2082	5 October 2011	14 October 2011

Organisations accredited for several activities may still be listed as accredited on the UKAS website, even though their MCERTS stack emissions monitoring activities are suspended. The accreditation schedule should be checked to confirm the MCERTS accreditation status.

The MCERTS accreditation status of an organisation may change at any time. The latest information regarding the MCERTS accreditation status of an organisation can be found by searching on the "Laboratory Number" using the UKAS website below:
