

## Record of changes to SR2008 No27 – mobile plant for the treatment of soils and contaminated material, substances or products

### Record of changes

Version	Date	Change
1.0	April 2008	Published for launch of EPR 2008
2.0	April 2009	Minor administrative changes, including removal of pest control rule.
3.0	April 2010	<p>Minor administrative changes, including:</p> <ul style="list-style-type: none"> <li>• the management rules revised to make it clearer what is expected of operators;</li> <li>• accident management plans incorporated into the management rules. Guidance on these rules amended to say how this should be done;</li> <li>• the term “fugitive emissions” replaced with “emissions of substances not controlled by emission limits;” considered to be clearer for the wider range of activities to be permitting under EPR 2010. The new term is defined in each set of standard rules;</li> <li>• the rule covering where records must be held amended to make it more flexible. Records may be stored off-site with our written agreement if this suits business or operational arrangements.</li> </ul>
4.0	April 2011	<p>Limits of permitted activities expanded to include sorting and segregation and pump and treat technologies.</p> <p>New rule added requiring operators to notify the Environment Agency at least 7 days before the start of each deployment.</p>
