Attention: Mr Colin Hardman

2nd November 2009

Dear Colin,

RE: CLIFTON MARSH RSA APPLICATION

Further to our previous meetings and correspondence, we wish to confirm that Nuvia Ltd acting as consultants on behalf of Sita UK Ltd have today submitted by email to you, our application for RSA Authorisation. In making this submission Sita UK has formally applied for authorisation under the Radioactive Substances Act 1993 to accept additional VLLW and LLW wastes from nuclear sites other than Springfields and Capenhurst at the Clifton Marsh landfill site.

The application has been prepared over the last 12 months and has been subject to ongoing discussions with the Environment Agency. We believe that our application is made in accordance with the published guidance and we await your initial response and notice that the application is duly made.

Please can you direct any queries or correspondence to me by post to the Preston Office address above.

Yours sincerely,

Phil Holland
Decommissioning Development Manager
Sita UK
